

Foot Care Nurse Course (Part 2-Clinical)

In partnership with
FOOT CARE
KINGSTON

Course Description

TiredSole™ is an education partner for [Foot Care Kingston](#)'s Foot Care Nurse (FCN) course.

The Foot Care Nurse (FCN) course is designed for nurses (RN's, NPs, RPN's & LPN's) new to foot care and for experienced foot care nurses who wish to update their knowledge and skills. The course follows a comprehensive, advanced and diabetic nursing foot care curriculum. This curriculum is based on current Best Practice Guidelines and evidence-based practice, including competencies from the Canadian Association of Foot Care Nurses' [National Competencies for Advanced Nursing Foot Care in Canada \(2017\)](#), which are integrated as exit competencies to the course.

This course has an online theoretical component (FCN Part 1) and an in-person clinical mentorship component (FCN Part 2), and is designed to prepare participants to function as a foot care nurse within a health care team.

FCN Part 2 (Clinical) is the mentorship and clinical component of the FCN course where students practice their foot care nurse skills. The curriculum for Part 2 was developed by [Foot Care Kingston](#) and is administered by Foot Care Kingston in Kingston and by select education partners across Canada. Each location uses the same standardized peer-reviewed education guidelines and this FCN Part 2 Course Outline.

Students can apply for FCN Part 2 at any time after having started FCN Part 1. Part 1 of the FCN course is offered online by [Foot Care Kingston](#) and is a prerequisite to start Part 2. Please read the [FCN Part 1 Course Outline and Appendix A](#) and visit the [FCN 1 \(Theory\)](#) page of the Foot Care Kingston website for more information on this part of the course and to register.
